ALUMINUM TRAILERS L.L.C.

*Now With
Rumber
Wall Lining
Standard on all
Horse Trailers*

rumber®

Rumber Materials Inc. has a plant to produce products from 100% recycled tire and rubber and plastics. This has created a revolution in the way we think about everyday products. Rumber is the environmentally friendly choice for a number of specialized products. Bottom line, Rumber products are your most cost-effective option because they're easy to maintain and they last longer over time.

"A trailer with Rumber® flooring gets the horse to its destination in a more comfortable, fresher condition."

—Ruth Sobeck, D.V.M.

Benefits and Features

- Will not rot, crack, splinter
- Insect and termite proof
- Easy to clean
- UV and water resistant
- Extremely tough and durable
- Improves resale value
- Most cost effective option over time
- 20-year limited warranty on flooring

Rumber Wall Lining Now Standard on all Eclipse Horse Trailers

Rumber flooring is impervious to water and has a limited 20 year warranty for horse and livestock trailer applications. It also serves as a cushioning surface for livestock, giving them a firmer footing and minimizing the risk of injury. In addition, Rumber's cushioned texture reduces the physiologic stress on joints and soft tissue, noticeably reducing the fatigue associated with transport.

With unprecedented durability and attributes that clearly out-perform traditional materials, Rumber increases the value and life of the trailer. The result is less downtime, fewer replacement costs and extended life for stock trailers.

WALL ARMOR

rumber®

Everlasting - Rockhard - Shatter Proof
